## **WHO ARE WE**

1. Mamediem Limited is a Defence/Security Consultancy and Logistics Company registered in October 2021 with head office at Hampton Apartments, Sorotona Close, Wuse District, Abuja, Federal Republic of Nigeria. Our core business is to provide timely, dependable and affordable solutions to the operations, training and logistics problems of the defence and security establishment by leveraging on outstanding Original Equipment Manufacturers whose products and services will meet the specific short, medium and long term needs of our clients. In this regard we seek to identify resources notably reputable manufacturers whose products and services fit the budget size as well as the long term logistic support, operations and training needs of the defence and security establishments. We equally engage in security and training consultancy service for the Oil and Gas industry as well as general contracts with emphasis on human resource development, supply of medical, power and agricultural equipment and real estate development.

## **OUR MISSION**

2. In many developing countries a major problem that the defence and security sector has had to cope with is the multiplicity of equipment from countries with different maintenance standard, training and after sales support. Integrating these equipment and ensuring their sustained operational availability has posed an enormous challenge for the defence and security sector in terms of dependable long term logistic support, training and maintenance.

3. Mamediem Limited is established to solve this problem by drawing on the extensive expertise of retired defence and security personnel who has managed the system at the very highest level. Consequently, leveraging on the deep insight of these experts who cut across operations, logistics, engineering, medical and administration, Mamediem Limited is able to assist industry to best provide the right equipment, long term logistics support and training to the defence and security sector that specifically meet their current and future operational need.

## OUR VISION

4. To be a foremost defence/security consultancy and logistics company that conducts its business with the highest level of integrity and which is able to provide our client with the right solution that is affordable, on time and dependable.
